SUMMARY

Highly motivated MERN Stack Developer with strong expertise in MongoDB, Express.js, React.js, and Node.js. Passionate about creating full-stack web applications that offer both visual appeal and robust functionality. Skilled in developing RESTful APIs, building reusable UI components, and ensuring code maintainability and type safety with TypeScript. Proficient in JavaScript, HTML, CSS, and modern front-end frameworks/libraries. Experienced in responsive design, cross-browser compatibility, and mobile-first development. Adept at managing databases, implementing authentication and authorization mechanisms, and optimizing application performance. Proficient with Git for version control and GitHub for collaborative development. Familiar with Agile and Kanban methodologies for efficient project management. Demonstrates strong problem-solving abilities and excellent communication skills, thriving in collaborative environments where I can contribute, learn continuously, and deliver outstanding web experiences.

EXPERIENCE

07/2022 – 09/2022

TREBUCHET SYSTEMS – KOCHI, KERALA

Front End Intern

- Redesigned the front-end user interface (UI) of the application to improve usability and enhance user satisfaction.
- Successfully integrated the front-end application with the back-end system, ensuring seamless data flow and functionality.
- Implemented version control practices using Git, facilitating efficient team collaboration and project management.
- Assisted in debugging and troubleshooting front-end issues, ensuring high-quality and bug-free releases.

03/2022 – 04/2023

TINKERHUB GCT CAMPUS COMMUNITY – THRISSUR, KERALA

Technical Lead

- Organized and led technology workshops and seminars for students, focusing on industry-relevant skills and trends.
- Developed and delivered comprehensive training materials, ensuring clear and effective communication of complex technical concepts
- Facilitated hands-on sessions, enabling students to apply learned skills in real-world scenarios.

EDUCATION

2021 – 2024

SRI C ACHUTHA MENON GOVT COLLEGE THRISSUR

Bsc Computer Science

SKILLS

- HTML
- CSS
- Framer Motion
- React js
- Zustand
- Material UI
- TypeScript
- JavaScript
- Next js
- Git
- Trello
- GitHub
- React Query
- Tailwind
- Jest
- JWT
- Mongoose
- Node JS
- React Native
- Postman
- Node JS
- Express
- PostgreSQL
- MongoDB

PROJECT

06/2024 – 06/2024

QUICK NOTE

Note Making Web App

- **Description:** Developed a note-taking application using the MERN stack (MongoDB, Express.js, React.js, Node.js). The app allows users to create, edit, and delete notes. It features user authentication, CRUD operations for notes, and a responsive interface. The project demonstrates full-stack development skills, RESTful API design, and integration of front-end and back-end technologies.
- **Technologies and Tools:** React.js, TypeScript, Express JS, Node JS, MongoDB, Mongoose, Zustand, JWT
- **Skills Demonstrated:** Front-end development, Backend development , UI/UX design, state management
